PUBLIC INTEREST BENEFITS RESULTING FROM ENTERING INTO THE LMA

The Time Brokerage Agreement for KGLB-TV, Okmulgee, Oklahoma was entered into as part of a multi-agreement arrangement providing for the construction of this television station. The permit was originally granted by the FCC for KGLB-TV in 1987 and as of 1996, the station had not been constructed. On May 23, 1996, the permittee entered into a series of Agreements with Paxson Communications of Tulsa-44, Inc. that provided for the construction of the station by Paxson Communications of Tulsa-44, Inc., and the programming of the station by Paxson Communications of Tulsa-44, Inc. once the station was constructed. As a result of these Agreements, a construction permit that had been outstanding for approximately nine years has been converted into a television station that is now on-the-air broadcasting today and being programmed pursuant to the TBA. Without the opportunity for the LMA, the permittee would not have been able to enter into the Construction/Lease Agreement with Paxson Communications of Tulsa-44, Inc.
